# DESIGN & FABRICATION STUDIOS

We are looking for inspiring creatives who are excellent humans, ready to take their business in design or creative manufacturing to the next level.

Applications are open for our MakerSpace Studios. Individual or shared studios, within a fully equipped workshop and a professional hub for designers, fabricators, engineers and makers.

We'd love you to join the family.

WELCOME

# THE SPACE TO MAKE ANYTHING

## STUDIOS

MakerSpace & company is Australia's largest incubator for design and fabrication businesses. We provide studios within a fully equipped shared workshop, co-working office and a phenomenal short-course program. Located in Marrickville's industrial/creative precinct, we sit at the nexus of design, manufacturing and entrepreneurship.

We want to enable you to launch and grow your creative business, with access to the workspace, equipment, expertise and professional community you need. Are you one of us?

**The Makers //** are you creating something tangible?

**The Determined //** do you have the desire to grow as a designer? Are you trying to make a living out of what you are doing?

**The Mighty Micro Businesses //** we're here to support individuals and small companies.

**The Visionaries //** are you looking for a community to help bring your new, exciting ideas to life?

**The Explorers //** are you working with new, experimental, innovative techniques & technologies?

**The Teachers //** do you want to share your skills and knowledge?

**The Leaders //** do you love the idea of being a vital part of the development of a creative community that will help many establishing artists and designers.

**The Establishing Artists //** are you searching for a supportive community where you can achieve your full potential as a designer.

## MAKERSPACE STUDIOS

---

# THE STUDIOS

---

It's important that we get the right mix of people to grow our creative community. We want you to not only feel involved in what's happening, but be super excited about it!

We have approx. 20 studios in varying sizes. Some are in the heart of the machine shop, others in quiet, leafy retreats. We have spaces for mess and spaces for calm. With an active community of creatives running their small businesses, so you'll be surrounded by the right kind of creative energy!

### THE SPACE TO MAKE WHAT'S INCLUDED?

---

The space is empty - it is yours to fill.

---

24 hour access to your studio.

---

Unlimited access to workshop facilities during open hours.

- Wood and Metal Workshop
  - Ceramic Studio
  - Digital Fabrication Studio
- 

High speed Fiber Optic internet via WIFI.

---

Bathroom and kitchen amenities.

---

Discounts on classes and MakerSpace events.

---

.....  
The studios are BYO! A blank canvas waiting to become a creative sanctuary. Let's create your wildest studio/workspace fantasies.

Studios have access to single phase power and running water within 100m. 3Phase power is available in the shared workshop.

Studios are in various locations - some are up one flight of stairs, there are a limited number on the warehouse floor. There is some forklift access to get your gear upstairs, but at this stage anything you're bringing has to be able to fit through a standard door frame.

You will have access to the meeting room, printing & internet. Access to machinery and specialist equipment is during staffed hours, typically 9am-6pm Monday to Friday (with regular late nights till 9pm), and 9am-5pm Saturday.

---

## PRICING

### INDIVIDUAL STUDIO PRICING

MakerSpace has a wide range of studio sizes available, to give an indication of sizes and pricing:

---

**10m<sup>2</sup>** \$120 + GST per week  
(paid monthly \$572.00 inc GST)

---

**15m<sup>2</sup>** \$180.00 + GST per week  
(paid monthly \$858.00 inc GST)

---

**20m<sup>2</sup>** \$240.00 + GST per week  
(paid monthly \$1,144.00 inc GST)

---

.....  
Some facilities have additional usage fees - for example, welding, ceramics firing and digital fabrication have a small fee to cover operating costs.

The studio rent include the cost of amenities for one person only. If there are two of you in the business, there will be an additional \$20 per person per month added to the above rent. With another great creative mind to support, this will cover extra usage.

We provide the essential amenities: electricity, water, internet, printing, equipment maintenance, space upkeep, cleaners, toilet paper, soap, tea & coffee etc.

Rent may also increase over incremental periods to keep you in line with commercial rental rates and better prepare your business for expansion to an external premises. This is not tough love. It is true love. Your success is the best indicator that we are doing our job well and we want you to fly.

---

Run your business here and join Sydney's most exciting space for makers & creative entrepreneurs.

---

Belt sander and disk sander

---

Linisher

---

Table router

---

Wood lathe

---

Drill press

---

### METAL MACHINERY

---

Band saw - horizontal

---

Welders jig table

---

MIG and TIG Welders

---

Mill

---

Metal Lathe

---

Linisher

---

Sheet metal guillotine

---

Sheet metal roller

---

Sheet metal folder

---

Pipe bender

---

Pipe section roller

---

Oxy acetylene torch

---

Hydraulic press

---

Plasma cutter

---

Blacksmithing facilities

---

### CERAMIC FACILITIES

---

Pottery wheels

---

Extruder

---

Slab roller

---

Banding wheels

---

Large electric kiln

---

Small electric kiln

---

Gas kiln

---

### DIGITAL MACHINERY

---

CNC router

---

laser cutters

---

3D printers

---

## CLASSES + PROGRAMS

## EDUCATION

### PROGRAM:

Up your game! Learn new processes and hone your technique. Our small-group classes are hands-on, skills focused and fun.

Work on self-directed projects in our **Tutored Sessions**, or choose from our program including:

.....  
Intro to Ceramics

Ceramics: Handbuilding

Ceramics: Slip Casting

Ceramics: Glaze master-classes

Ceramics: Studio management

.....  
Intro to wood machinery: chopping board

Urban Forest: Coffee table with local timber

Woodworking: Make a Small Box

Woodworking: Tool sharpening

Woodworking: Make a Picture Frame

.....  
Intro to welding

Welding and Metal fabrication

Sand casting metal

Knife-making

.....  
Intro to 3D printing

Intro to CNC routing: make a box

Intro to laser cutting

.....  
Embroidery for fashion and textiles

Machine knitting

Leatherwork: make an apron, wallet or belt

Screen printing

Sign painting
